

SCADA & TELECOM ENGINEERING

Tailor-made engineering,
procurement, and construction

OUR SAVOIR-FAIRE IN ENGINEERING, PROCUREMENT & CONSTRUCTION

PARIFEX carries out EPC contracts covering the studies, manufacturing, supply, installation and commissioning of SCADA, Transmission and Instrumentation equipment.

PROJECT MANAGEMENT

Project Management at all stages

ENGINEERING

Design, integration, configuration, development

PROCUREMENT

Supply of equipment

INSTALLATION

On site supervision for installation and construction.

CONSULTING

Design, IT services...

COMMISSIONING

On site activities for testing

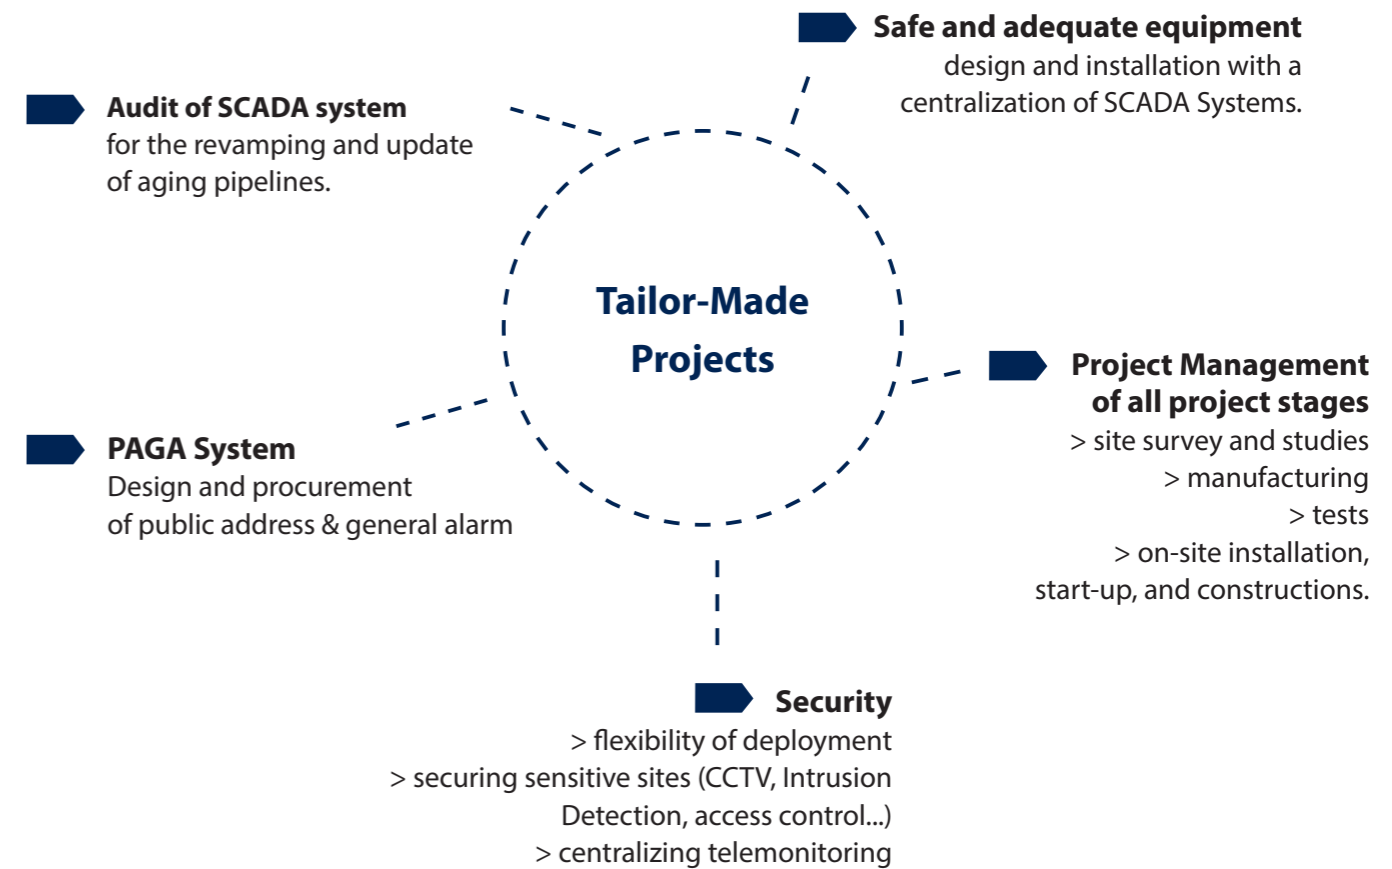

TELECOMMUNICATIONS

- > Transmission & telephony networks
- > Radio communication networks
- > Networks & IT infrastructures

A QUALITY COMMITMENT

PARIFEX have led tailor-made projects for more than 25 years. From the audit to management of project, our dedicated engineering teams rely on quality and safety to provide unmatched results.

As PARIFEX is involved in a quality management policy, we commit to managing every project strictly respecting quality procedures.

- ✓ **Environment, health and safety**
Total compliance with safety procedures

- ✓ **Quality**
Tailor-made projects in accordance with quality procedures and practices

Focus on...

The revamping of the new optical fiber transmission systems and supervision of the 1,000km LR1 / DLR1 pipeline

65 sites

2,200 inputs/outputs

Supply, Installation, Commissioning, and Training

- > Carrier Ethernet OTN transmission system
- > SCADA Honeywell system
- > Solar energy workshops
- > Shelters for passive cooling
